PROFESSIONAL SUMMARY

B.Sc. Mathematics graduate and Data Analyst Intern with hands-on experience in Python, Machine Learning, predictive analytics, and dashboard development. Experienced in building forecasting systems, scenario simulation tools, and data-driven applications through internship and project work. Strong foundation in statistical analysis, problem-solving, and transforming data into actionable insights. Seeking opportunities in Data Science, Machine Learning, and Analytics to contribute to impactful business solutions.

TECHNICAL SKILLS

- **Language:** Python, SQL
- **Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Streamlit, Plotly
- **Core Areas:** Machine Learning, Predictive Modeling, Regression, Classification, Clustering, Feature Engineering, Data Visualization, Exploratory Data Analysis (EDA), Time-Series Analysis
- **Tools:** Git/GitHub, VS Code, Jupyter Notebook, Google Colab, Power BI, AWS (Basics)
- **Soft Skills:** Team Collaboration, Problem Solving, Quick Learner, Adaptability

EXPERIENCE

Data Analyst Intern | Unified Mentor | Feb 2026 – May 2026

- **System Capacity Analytics Platform** [[Live App](#)]: Developed a full-stack dashboard using Python and Streamlit, integrating both Rolling Mean and Linear Regression models for 7-day and 14-day system load forecasting, improving data visibility by 40%.
- **Interactive What-If Simulation Engine:** Engineered a dynamic scenario simulator allowing stakeholders to adjust variables like 'intake volume' and 'discharge rate' via interactive UI sliders, speeding up operational decision-making by 3x.
- **Care Transition Efficiency Analytics** [[Live App](#)]: Engineered a comprehensive KPI-tracking dashboard using Pandas and Plotly to monitor pipeline throughput and auto-detect operational bottlenecks via Severity Heatmaps. Integrated an automated insights engine for executive reporting, eliminating 5+ hours of manual data analysis weekly.

PROJECTS

Diabetes Risk Prediction Web Application | Python, Streamlit, Scikit-learn | [GitHub](#) | [Live App](#)

- Developed and deployed a ML web app on Streamlit Cloud to predict diabetes risk using patient health data.
- Trained a Random Forest model and optimized performance using feature importance analysis.
- Built an interactive UI delivering real-time predictions with visual insights for model interpretability.

EDUCATION

- B.Sc. Mathematics | 2022-2025 Siddharth University Kapilvastu Siddharth Nagar, UP
CGPA: 7.76 (till latest available result)
- Class XII (PCM) | Heeralal Ramnivas Inter College | Khalilabad, UP | 2022

LICENSES & CERTIFICATIONS

- **Data Analyst Internship Certificate** | Unified Mentor (May 2026) | [[View Certificate](#)]
- **Certification in Artificial Intelligence & Machine Learning** | Vishlesan i-Hub, IIT Patna in collaboration with Masai (Ongoing). Awarded 'Certificate in Excellence in Evaluation' (May 2026) for outstanding performance | [[View Certificate](#)]

ACHIEVEMENTS & HACKATHONS

- **Hackdata Hackathon'26 (Shiv Nadar University):** Ranked in the Top 40 teams out of 800+ participants for problem-solving and rapid prototyping under time constraints | [[View Certificate](#)]
- **E-Raksha Hackathon (IIT Delhi):** Shortlisted in the Top 20 teams out of 1,000+ participants for the 36-hour on-site hackathon organized by eDC IIT Delhi & CyberPeace Foundation | [[View Certificate](#)]
- **Pitch Night Edition (Google Student Ambassador Program 2026):** Showcased exceptional creativity and demonstrated strong visual storytelling skills | [[View Certificate](#)]
